Valid German residence permit with work authorization — immediately available

PROFILE

Experienced Full-Stack Developer specializing in modern frontend technologies (React, Next.js, React Native) with solid backend expertise (Node.js, Express, PostgreSQL, SQL). Proven track record building scalable web applications, mobile apps, and data-driven system architectures within agile team environments. Following relocation to Essen, now certified at German C1 level and immediately available for the German job market.

CORE COMPETENCIES

- Frontend Architecture: React, Next.js (SSR/SSG), React Native – scalable & component-based
- Backend Development: Node.js, Express, REST API design, database architecture (PostgreSQL, MySQL, MongoDB)
- TypeScript & JavaScript: strong typing, clean codebase, reusability
- Testing: Jest, Mocha, Jasmine, Artillery (server testing) – unit and integration tests
- UI/UX Implementation: MUI, Tailwind CSS, Bootstrap – pixel-perfect implementation of Figma designs
- Performance Optimization: lazy loading, memoization, code splitting
- CI/CD & Version Control: Git, GitHub, GitLab, GitHub Actions
- State Management: Context API, component-based state management

PROFESSIONAL EXPERIENCE

Freelance Developer

09.2024 – 08.2025

Remote, Tunis

- Independently developed the frontend of a travel platform for a travel agency in Tunisia (project “MhTravel,” Next.js/React/Node.js/MySQL)
- In parallel: built a Beauty Management Platform (Next.js admin dashboard + React Native app)
- In parallel: intensive German language study (B2 → C1) in preparation for relocation to Germany

Relocation to Essen & Intensive German Course (C1)

08.2025 – 04.2026

Essen, Germany

- Full-time language course at a language school in Essen, completed with a C1 certificate (04.2026)
- In parallel: Generative AI training (Udemy, 2026) and further training in Next.js/TypeScript
- In parallel: continued development of the Beauty Management Platform (React Native app, currently being finalized)

Full-Stack Developer, TuniDesign

11.2023 – 09.2024

Tunis, Tunisia

- Developed modern, responsive UIs with React, Next.js, and TypeScript; translated Figma designs into 30+ reusable UI components
- Co-developed a web platform for legal services
- Integrated and consumed REST APIs for data processing
- Worked closely within the team to continuously improve the user experience

React Developer (Volunteer), Croissant-Rouge Tunisien

06.2023 – 05.2024

Remote/part-time, alongside full-time role – Tunis, Tunisia

- Developed and maintained web applications in a non-profit context
- Optimized existing frontend components for better performance and usability
- Supported the ongoing development of the digital platform

Full-Stack Developer, E-tafakna

03.2023 – 08.2023

Tunis, Tunisia

- Built an interactive admin dashboard with React, MUI, Chart.js

- Implemented full CRUD operations with Node.js, Express, and SQL across 16 data entities
- Designed and implemented modern UI/UX concepts; integrated backend services into the frontend application
- Optimized database design and SQL query performance – reduced response times by ~40%
- Tested with Artillery – achieved 100% coverage of critical API endpoints

PROJECTS

MhTravel – Travel Platform (Tunisia)

GitHub: <https://github.com/yahyadhaou/MhTravel>

Technologies: Next.js, React, Node.js, Express.js, MySQL

Built a responsive travel platform for a travel agency in Tunisia. Implemented dynamic content and booking functionality, with a backend built on Node.js, Express.js, and MySQL. Backend code is not publicly available due to a confidentiality agreement with the client.

Beauty Management Platform (in progress)

Technologies: Next.js (admin dashboard), React Native (mobile app)

Building a beauty management platform with appointment and customer management features. Frontend implemented with Next.js (admin dashboard) and React Native (mobile app). Focused on performance, usability, and responsive design.

More current projects on GitHub: <https://github.com/yahyadhaou>

SKILLS

- Frontend: React, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3
- Backend: Node.js, Express.js, REST API, Microservices
- Databases: PostgreSQL, MySQL, SQL, MongoDB
- Testing: Jest, Mocha, Jasmine, React Testing Library, Artillery
- UI Frameworks: MUI (Material UI), Tailwind CSS, Bootstrap, Ant Design
- DevOps & Tools: Git, GitHub, GitLab, GitHub Actions, CI/CD, Cursor AI, LLMs
- Methods: Agile/Scrum, code reviews, component-based architecture

LANGUAGES

- German – C1 (certified, language school Essen, 04.2026)
- Arabic – Native
- English – C1
- French – B2

EDUCATION & CERTIFICATIONS

Full-Stack Development – Certificate Program (Algorithms & Data Structures), RBK01.2023

Tunis, Tunisia

German C1 Certificate, Language School

04.2026

Essen, Germany

COURSES (UDEMY)

- Generative AI — 2026
- The Ultimate MySQL — 2025
- Mastering TypeScript — 2025
- The Modern React Bootcamp (Hooks, Context, Next.js, Router) — 2025
- React Native – The Practical Guide — 2024
- React – The Practical Guide — 2023
- JavaScript Algorithms and Data Structures Masterclass — 2023
